Amman, Jordan | (00962) 791459257

hzawaideh@outlook.com | www.linkedin.com/in/hisham-zawaideh

## Objectives:

Electrical Procurement Engineer with total 10+ Years' experience in construction fields. Worked in Mega and multinational project (High rise buildings, five stars hotels & Shopping malls). Strong and eloquent in project management, team leading and problem solving. Expertise in Electrical and ELV equipment and services installation & testing, Procurement, Estimation and Technical Support. Adept in providing oversight and guidance to engineers, subcontractors, and staff.

## EXPERIENCE

### Procurement Engineer - Electrical

Nov 2020 - Present

Arab Construction and contracting company, Jordan

- Crowne Plaza Resort Project

Responsible about all electrical and ELV works in the project, including Engineering, Estimation, Procurement, site work execution & coordination, in addition to office engineering work.

- Central Utility Buildings Project for the Royal Hashemite Court

The project is consisting of Central Utility buildings for the Royal Hashemite Court. I was responsible for the project closure and for all electrical and ELV works for the entire project.

### Electrical Section Engineer

Sep 2015 - Oct 2020

Consolidated Contractors Company (CCC), Kazakhstan

#### Abu Dhabi Plaza Project

Electrical section engineer at Abu Dhabi Plaza Project; the project is consisting of Sheraton Hotel, Shopping Mall, offices, residential and serviced apartment blocks set on retail podium and four below ground basement levels (2 Billion\$). I was dealing and responsible for Substations, Generators, Switchgear, Plant Room, and 4 levels of car parking areas, including all Electrical and ELV (FA, PAVA, CCTV, Structured Cabling and communication system, BMS) installations.

\* Key Contribution:

\* Handing over Pump and Substation rooms (Switchgear, Transformer, LV Panels and Generators).

\* Handing over Main IT, CCTV, and Security Rooms.

\* Installation and testing of the Busbar (Bus-Duct) service for the entire project.

\* Grounding system installation, bonding and testing for the entire project.

### Electrical Site Engineer

Mar 2013 - Aug 2015

Hiba Engineering Establishment, Jordan

#### Al Abdali Shopping Mall Project

\* Responsibilities:

\* Following up Electrical works and systems installations on site.

\* Inspect the work and hand it over to the site consultant.

\* Making progress reports and trackers and follow them up.
