SUMMARY

Seasoned Fire Safety Engineer renowned for crafting and executing innovative fire safety strategies to protect assets and ensure occupant well-being. With a background in engineering coupled with extensive hands-on experience, I excel in identifying fire hazards, designing preventive measures, and conducting rigorous safety audits.

EDUCATION

2011 -2016

Prince Al-Hussein bin Abdullah II Academy
Bachelor in Fire Safety Engineering
Jordan , Amman

CERTIFICATES

Certified Fire Protection
Specialist - (CFPS) / NFPA

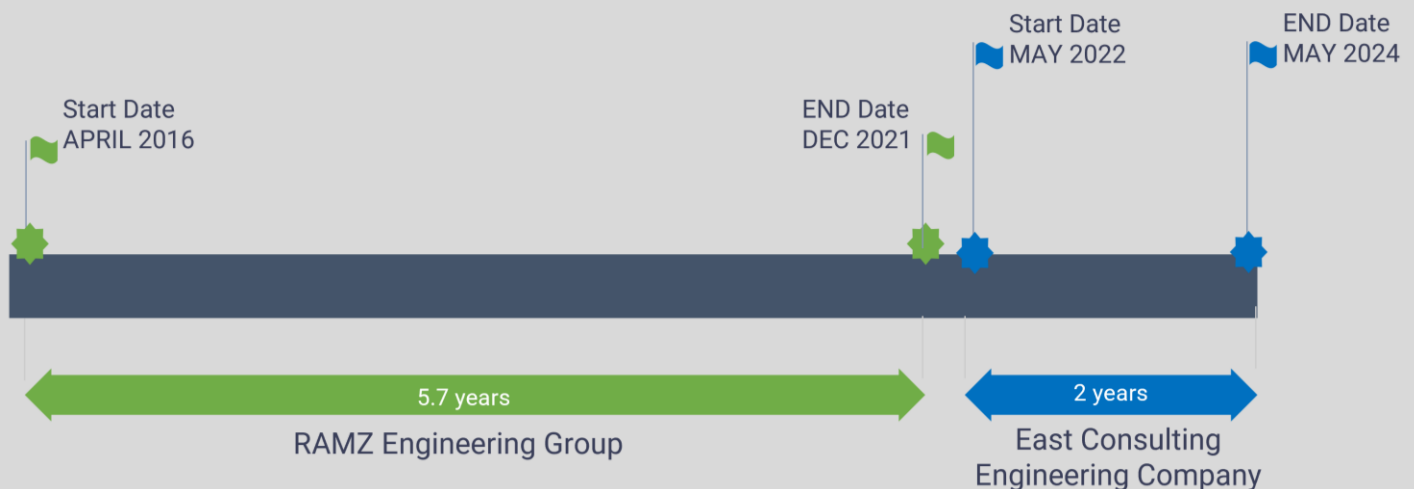

Project Management
Professional - (PMP) / PMI

Risk Management
Professional - (RMP) / PMI

WORK EXPERIENCE (8 YEARS OF EXPERIENCE)

MAY 2022 – MAY 2024

Fire Safety Engineer | East Consulting Engineering Company, Saudi Arabia, Riyadh

Professional Achievements:

- **Fire Safety Planning:** Developed and executed comprehensive fire safety plans for large-scale projects, ensuring adherence to industry standards.
- **Cross-Functional Collaboration:** Collaborated with architects, engineers, contractors, and stakeholders during project design, ensuring strict compliance with fire safety regulations.
- **Code Compliance Analysis:** Analyzed building designs and layouts to guarantee conformity with local and international fire safety codes and regulations.
- **Inspection and Correction:** Conducted thorough inspections of fire protection systems, identifying deficiencies and recommending corrective actions to maintain optimal functionality.
- **Technical Expertise:** Provided technical expertise to ensure the seamless operation of fire safety systems in accordance with industry standards.

APR 2016 - DEC 2021

Head of Fire & Safety Department | RAMZ Engineering Group, Saudi Arabia, Riyadh

Professional Achievements:

- **System Requirements Analysis:** Evaluated building plans to ascertain the requisite fire protection system specifications, ensuring optimal safety measures.
- **Regulatory Collaboration:** Collaborated with local regulatory authorities on matters concerning life safety systems, ensuring compliance with relevant regulations.
- **Technical Support:** Offered technical assistance in the design, installation, and maintenance of fire suppression systems, contributing to the overall effectiveness of safety measures.
- **Cross-Functional Coordination:** Coordinated with architects, engineers, contractors, and suppliers to address design issues related to life safety systems, fostering a collaborative project environment.
- **Construction Guidance:** Provided technical guidance during construction activities, particularly concerning life safety installations, ensuring adherence to safety protocols.
- **Efficient Design Processes:** Developed and implemented effective design processes, contributing to the timely completion of projects without compromising safety standards.

SPECIALIZED KNOWLEDGE

- Fire & Life Safety Systems
- Fire Protection Systems
- Fire Alarm Systems
- Emergency Communication Systems
- Smoke Control Systems
- Emergency Lighting System
- Lightning Protection Systems
- Earthing Protection Systems

SPECIALIZED IN CODES

- Saudi Building Codes.
- National Fire Protections Associations Codes & Standards.
- International Building Codes.
- International Fire Code.
- FM Global Data Sheets

TRAINING AND COURSES (+10 MORE)

- Certified Fire Protection Specialist - (CFPS), 2023, NFPA
- Risk Management Professional - (RMP), 2023, Project Management Institute
- Project Management Professional - (PMP), 2022, Project Management Institute
- NFPA 101 - Life Safety Code, 2018, NFPA
- Smoke Control Systems, 2017, Jensen Hughes Academy
- Smoke Management System, 2017, ENGOSOFT Academy
- Diploma in Architecture Engineering Drawing, 2015, Stanford Academy

SKILLS

LANGUAGES

- Arabic - Native
- English – Professional

PROJECTS (+ 250 MORE)

- Riyadh Bus Stops and Bus Rapid Transit Project – Phases 1 & 2 & 3 – Riyadh, Saudi Arabia.
- King Abdullah Project for Development of Security Headquarters Ph.2-A – Riyadh, Saudi Arabia.
- Maraya Al-Ula Concert Hall – Al-Ula, Saudi Arabia.
- MOI South border housing project – Najran & Jazan, Saudi Arabia
- King Abdullah Project for Development of Security Headquarters Ph.2-B – Hail & Tabuk, Saudi Arabia
- DAMAC twin towers – Riyadh, Saudi Arabia.
- 300 Bed Armed Forces Hospital – Jazan, Saudi Arabia
- Oxagon Pioneer Camp - 1500 Units – NEOM, Saudi Arabia.
- TAMASUK FUTURE CITY – NEOM, Saudi Arabia.
- SPARK Digital Center – Eastern Province, Saudi Arabia
- DUBA & SHIGRI & HAQIL NEOM BASE ECONOMY ASSET – NEOM, Saudi Arabia.
- I-Herb Distribution Centre – Riyadh, Saudi Arabia.
- Site Survey and Evaluation of Safety Systems for (270) schools – 5 REGION IN Saudi Arabia.
- Crown Plaza hotel in ITCC complex
- Visitor Center of Al-Riyadh Metro) – Riyadh, Saudi Arabia.
- Visitor center – Al-Qidiah project – Riyadh, Saudi Arabia.

+ Tens of large-scale projects and hundreds of medium & small-scale projects.
